# New in NovaBACKUP 16.5

Seamless Support of Popular File Sharing Applications

Complete protection with both local and online backup destinations, and the freedom to select your favorite file sharing service *(Dropbox, Google Drive, etc.)*. Backup to your favorite cloud platform as you would to any other drive! Store data safely and securely with military grade encryption.

Advanced Scheduler

Now you can setup a unique, personal schedule within your backup routines to enable and disable backup jobs on your days of choice.

Integrated Access to Support

NovaStor technical expertise at your fingertips - immediate access to FAQs, knowledge base and an extensive array of documents and videos to help you through any potential hazard.

Granular (Single Mailbox) Restore for Exchange

Ability to try before you buy, and enjoy NovaBACKUP ability to locate and recover individual items, down to the mailbox level within Microsoft Exchange.

Benefits and Features

	NovaBACKUP® NAS *multi-server protection with central management*	NovaBACKUP® Business Essentials *advanced server protection*	NovaBACKUP® Server *single file-server protection*	NovaBACKUP® Professional *single workstation and laptop protection*
