

New in NovaBACKUP 17.5

Enhanced Image Backup Creation

Enhanced process for the creation of Image Backup jobs with incremental and differential jobs options that may be flexibly defined and scheduled according to customer needs.

System Image to NAS

System image backups (aka. disaster recovery) are now conveniently assignable to NAS device destinations.

Support for the latest .NET Framework

NovaBACKUP can utilize either .NET Frameworks versions 3.5 or 4.X, whichever is already installed, thus reducing the need for setup to install an alternate version for backup jobs.

Improved Error Handling

More information provided, and reduced "false negatives" create an improved user experience.

Benefits and Features

NovaBACKUP® NAS	NovaBACKUP® Business Essentials	NovaBACKUP® Server	NovaBACKUP® PC
<i>multi-server protection with central management</i>	<i>advanced server protection</i>	<i>single file-server protection</i>	<i>single workstation and laptop protection</i>
