

What's New in NovaBACKUP

18

Microsoft Windows Server 2016 and Hyper-V Support

NovaStor immediately supports the latest technologies that power your business. Customers and partners can be secure in the knowledge that NovaBACKUP is here to protect their data, now – and for the future.

Microsoft SQL and Exchange 2016 Support

NovaBACKUP protects Microsoft SQL 2016 databases against corruption and user error with powerful backup and restore, while the new Microsoft Exchange 2016 is supported with granular single-mailbox recovery.

Native 64Bit Support with Autosensing Installer

NovaBACKUP auto-detects your OS and installs the your preferred technology (64-bit x64 and 32-bit x86). While 64-bit operating systems benefit from greater memory resources and enhanced performance with NovaBACKUP, 32bit users remain supported.

NovaBACKUP Monitoring Console (CMon)

Completely redesigned from the ground up from customer feedback, a new central monitoring application provides instant status of backup jobs via the Internet or mobile app. Available to NovaBACKUP users as a FREE download.

Features and Updates

NovaBACKUP® Business Essentials <i>advanced server protection</i>	NovaBACKUP® Server <i>windows server protection</i>	NovaBACKUP® PC <i>single workstation and laptop protection</i>
